There are two ways to qualify for the High Volume Tanked Waste Rate:

Monthly: The permit holder must deliver or have delivered to the designated WWS receiving station a minimum of 200,000 gallons in one calendar month.

Yearly: The permit holder must deliver or have delivered to the designated WWS receiving station a minimum of 2,400,000 gallons in one calendar year (200,000 monthly average). The permit holder and/or hauler will receive monthly invoices and is required to pay the invoice in full each month. In January of the following year WWS staff will review each account to determine if they qualify for the yearly High Volume Tanked Waste rate. For the permit holder and/or haulers to qualify, WWS staff will re-calculate the charges at the High Volume Tanked Waste rate for the months in which the 200,000 gallon monthly minimum was not met and the credit will be applied to the account.

* Requires an account established prior to discharge and pre-payment of fees. Additional charges may be incurred for high strength compatible pollutant discharges.
